

Derek Chapman - Construction Director

I'm a director of both the Community Stadium company and Brighton & Hove Albion FC. My role at the Amex Stadium is to make sure it is delivered on time, at the agreed price, and to the quality we require. It's also my responsibility to advise the board of directors on all matters in relation to the construction of the Amex Stadium.

I'm on the stadium site about 50 percent of my time, but I also meet with the project cost consultants and the builders of the stadium on a regular basis to make sure we're not spending more than we should!
